OBJECTIVE

Motivated Computer Science student with strong foundations in Data Structures, Algorithms, Java, and Core Computer Science subjects. Passionate about building efficient software applications across the full stack. Seeking opportunities to apply programming skills and software development knowledge in real-world projects.

EDUCATION

Degree/Certificate	Institute/Location	CGPA / Percentage	Year
B.Tech, CSE	SVCE, Tirupati	9.0	2025 – 2028
Diploma	Government Polytechnic, Pillaripattu, Puttur	90%	2022 – 2025
School	Sri Sai Ganesh Vidhalayam	94%	2022

EXPERIENCE

Web Development Intern | Codeon Technologies Pvt. Ltd., Tirupati May 2024 – Nov 2024

- Completed a 6-month internship focused on Web Development, UI/UX Design, and Cloud Computing.
- Developed responsive web pages using HTML, CSS, and JavaScript.
- Worked on frontend integration, basic backend features, and cloud deployment concepts.
- Assisted in building user-friendly UI components and ensuring optimized user experience.

PROJECTS

Smart Hire – Recruitment Management System (Resume Analyzer) Java | PHP | MySQL

- Developed a recruitment management system that automates candidate screening and ranking using resume parsing algorithms.
- Features, job postings, candidate registration, resume filtering, admin dashboard.
- Built RESTful APIs in Java and backend features in PHP for handling user data & operations.
- Integrated case studies and UI components based on UI/UX principles.
- Designed a data-driven dashboard to display hiring insights efficiently.

Network File Transfer Application Java | Socket Programming | TCP/IP

- Built a client-server application to transfer files between two systems using IP addresses.
- Used Java Socket Programming & TCP protocol for reliable data transmission.
- Simulated real-world network file transfers, demonstrating TCP/IP networking concepts.

Personal Portfolio – surendhra.netlify.app (E-Commerce Website) HTML | CSS | JavaScript

- Designed and developed a responsive portfolio and e-commerce website.
- Showcases projects, technical skills and internship experience with smooth UI.
- Utilized Netlify for continuous deployment, ensuring version updates and maintenance.

TECHNICAL SKILLS

- Programming

 - Java (OOP Collections, Multithreading, Socket Programming)
- Databases

 - MySQL, (GRUD, Joins, Normalization)
- Frontend

 - HTML, CSS, JavaScript
- UI/UX Designing

 - Case Studies, Figma
 - UI Design Principles
- Databases
- Additional Tools
